

ESSEX COUNTY 2ND TEAM REPORT 2015 -16

As captain of the second team for the first time I would like to say thank you to everyone that played for the team.

Although the team finished 5th overall I think this doesn't really show how well the team actually performed. There were some great matches especially the very first match against Middlesex lasting 4 and 1/2 hours. Outstanding singles from Miles Milner and Viknesh Rajendran lasting well over the hour mark. There were also some excellent performances from the Ladies in the singles by Chandana Nagaraj and Emma Skingsley. It was a great help to the team having some more experienced players, the likes of June Hammond to help and guide the young players playing for the county for the very first time. There was at least 2 or 3 matches where the deciding games were lost in setting causing us to lose the match 6-5 overall. On another day they could have gone our way and we would be fighting for top spot of the division.

Overall I think It was a great team performance and I could write about how well every individual member did as they all played their part in the team's success. I would like to thank everyone again that played and hope to see everyone back next season.
